

AgroParisTech

Welcome at AgroParisTech!

You are about to make a big decision and choose AgroParisTech, where you'll discover a stimulating new environment. You might be wondering what your daily life will be like in France, or feeling anxious about being alone... But AgroBienvenue will be there to welcome you!

AgroBienvenue is an association composed of a group of AgroParisTech students. We aim to help you integrate into the institute and answer your questions, whether you wish to know more about administrative procedures or any other topic... But AgroBienvenue is also here to foster cultural exchange by organising many activities and meetings. We look forward to helping you make this experience a successful one in every way.

AgroBienvenue Team

AgroParisTech gave me the opportunity to boost my professional and personal profile. International students are really taken care of and assisted in resolving all kinds of administrative issues, always with a positive attitude. AgroParisTech enabled me to discover different places in France. Being included in several projects helped me improve my French and professional skills. I am really happy to have been a part of AgroParisTech, which met all of my expectations!

- The cost of living is around €1,000 per month in Paris and €800 outside Paris (including accommodation).

- Student status in France allows you to enjoy meals at very reasonable prices and

benefit from a wide range of discounts, including: cultural events, student banking accounts and public transport cards.

- Several scholarships are available for international students.

- Degree-seeking students will be covered by National Health Insurance during their studies at AgroParisTech.

At AgroParisTech, I have learned that becoming an engineer means much more than developing technical skills. In fact, it means knowing how to use them in order to become a citizen who cares about global issues. Besides, I have met people from different parts of the world and realised that richness comes from diversity. After living in Paris for one year, I wish everyone could have this unique opportunity, which makes you grow as a professional and a human being.
